November 12 - 14: Symmons Plains, TAS

November 19 - 21: Sandown, VIC

December 3 - 5: Sydney 500, NSW

Hello and welcome to the first issue of my newsletter designed to keep you up to date on all the latest news, results and behind the scene details from my new teams' debut year in the V8 Supercar Series.

It has been a hectic few months from a simple idea on Sunday afternoon at Bathurst to a reality with my own team now loaded on the plane to Abu Dhabi in the United Arab Emirates for the season opener.

Many people told me at the start of putting a team together that it's a big job and I have to say they were right.

In just three months we have gone from nothing to having a license (fairly important) a race car (equally so) a truck, 8 great staff, more equipment than you could ever imagine and plenty of ups and downs.

We have received fantastic support from our title sponsor Gulf Western Oil and all other team sponsors have also been extremely helpful, creative and supportive in many ways to help get this team off the ground.

Life will always throw challenges at us and I am determined to keep moving forward and make the most of every day.

See you at the track real soon.

introducing...

# Daniel Gaunt

It's hard to image that at just 24 years of age Kiwi Daniel Gaunt has raced and succeeded in more racing categories than most drivers even attempt.

Daniel is highly regarded as a focused young star for the future of V8 Supercar racing and has been signed to Lucas Dumbrell Motorsport for the long term with a view to grow and deliver together.

Gaunt comes from a New Zealand racing pedigree of open wheel racing from not only his homeland, but also the USA and Australia winning the Australian Drivers Championship along the way.

He is a multiple winner in the Formula Toyota and NZ Porsche GT3 series and in 2009 made his V8 Supercar main game debut with Stone Brothers Racing driving the Irwin & SP Tools BA Falcon at Phillip Island and Bathurst.

Gaunt has also driven for NZ in the Global A1GP series and for the late Paul Newman in the Champ Car Atlantic Series in the USA.

The softly spoken and very professional Gaunt is keen to make his mark in the rough and tumble of V8 Supercar racing and believes the team Lucas has assembled has all the ingredients to succeed.

"Lucas has really done a good job, an unbelievable job given the time frame too." said Gaunt.

"The car is second to none and the engine and technical partnership with the crew at Walkinshaw Performance is a great model. All of the team personnel have long and credible histories and our race budget is what it should be - Lucas is not cutting corners. This is a real professional outfit and I'm really looking forward to it." he concluded.

Daniel Gaunt is a welcome member of the Lucas Dumbrell Motorsport family and together we are looking forward to an outstanding debut year under the leadership of the youngest ever V8 Supercar team owner, Lucas Dumbrell.
