PRODUCT DATA

Diesel Particulate Filter Cleaner

Heavy duty cleaner for diesel particulate filters

Description

Gulf Western Diesel Particulate Filter Cleaner is a heavy duty chemical cleaner and flushing liquid designed to gently remove ash, debris from lubricating oils, unburnt hydrocarbons and air induced dust that have accumulated in the DPF. The DPF Cleaner reduces soot formation during the fuel combustion cycle and clears and regenerates blocked soot filters while you are driving and without the need for dismantling.

Gulf Western Diesel Particulate Filter Cleaner uses a combination of additives to bind and break down soot particles by reducing the ignition temperature of the soot particles. This makes them easy to burn off thus avoiding excessive heat generation, all of which optimises combustion and lowers fuel consumption

Summary of Benefits

- Cleans DPFs
- Lowers fuel consumption
- Removes ash, dust and debris
- Reduces soot formation

Usage

- Use one bottle per tank of fuel. Product works best when tank is at least $\frac{1}{4}$ full.
- Drive for at least 25 kilometres on a long stretch of road to ensure temperatures reach high enough to burn the accumulated soot particles.
- The best guide to reaching correct temperature is to reach speeds of 2,000 RPM until either the DPF light goes off or until you have covered at least 45 kilometres. This should allow the car to self-clean (or regenerate) the DPF on its own.

Storage

All packages should be stored under cover to avoid the possible ingress of water and the obliteration of drum markings. Products should not be stored above 50°C.

Health, Safety and Environment

Health, safety and environmental information is provided for this product in the relevant Materials Safety Data Sheet, which can be obtained by contacting Gulf Western Phone: 02 9673 9600.

Typical Characteristics

Grade:	Diesel Particulate Filter Cleaner
Product Code:	43013
Product Description:	325mL bottle
Schedule 5 Poison	(>60%v/v liquid hydrocarbons)
Dangerous Goods:	Flammable Liquid Class 3

DO NOT SWALLOW.

Warning: FLAMMABLE. Keep in a cool dry place away from the sun. Do not store above 50°C. Do not use near fire or naked flame. Do not incinerate this product even when empty. Dispose of waste product thoughtfully.

FIRST AID: For advice, contact a Poisons Information Centre (13 11 26) or a doctor. If swallowed, do NOT induce vomiting. For additional information refer to the Safety Data Sheet.

Typical characteristics are only a guide to industry and are not necessarily manufacturing or marketing specifications and do not constitute any legal liability.
