

# TYRE SHINE

400GRAM AEROSOL CAN

## DESCRIPTION

Gulf Western Tyre Shine aerosol is a high quality silicone tyre treatment. It is specially formulated blend of different types of silicone to enhance light reflectivity and broad coverage. Gulf Western Tyre Shine is formulated with silicones that provide a consistent, shine finish when applied correctly that will rejuvenate tyres and aged vinyl. It resists water and outlasts most tyre shine products available. It is also economical and efficient to use.

May be sprayed, painted or wiped onto surfaces. Best results are achieved by spraying surface evenly and allowing 15 minutes to dry. Should faster drying be necessary wiping with a clean rag after spraying may be necessary. This may leave a slightly less shiny finish.

**Note:** The appearance of tyre shine after application to the tyre will vary depending upon the age and condition of the tyre. Newer tyres can repel the silicone due to the presence of coating from manufacturing and older tyres can soak up the silicone very readily thereby diminishing the gloss of the finish.

## TYPICAL PROPERTIES

Appearance:	Clear Liquid
Odour:	Solvent / Petroleum Odour
Solubility:	Not soluble in water
Flammable:	Highly Flammable
ADG Code:	Class 2 Flammable Gas (UN1950 AEROSOLS)
Specific Gravity:	0.72 - 0.75
Flash Point:	<15°C

*Typical characteristics are only a guide to industry and are not necessarily manufacturing or marketing specifications and do not constitute any legal liability.*

# TYRE SHINE

400GRAM AEROSOL CAN

## USAGE

Under normal usage the Gulf Western Tyre Shine aerosol will provide up to 350 spray applications per 400 gram can. Usage will also be dependent on application technique.

## PACK SIZE

400 grams.

## WARNING

Intentional misuse by deliberately concentrating or inhaling contents can be harmful or fatal. Keep in a cool dry place away from sun. Do not store above 50°C. Do not use near fire or naked flame. Do not incinerate this can even when empty. Dispose of waste residues and empty cans thoughtfully.

## HEALTH, SAFETY AND ENVIRONMENT

Health, safety and environmental information is provided for this product in the relevant Materials Safety Data Sheet, which can be obtained by contacting Gulf Western Oil on: 02 9673 9600.

*Keep out of reach of children. For first aid and emergency assistance, please contact the Poisons Information Centre on 13 11 26.*

## PROPELLANT

Hydrocarbon.
